Our leak-proof puppy wee pads are made with five layers of high-quality materials, which ensures that they are thick, absorbent, and durable. The top layer is made of soft, non-woven fabric, which is gentle on your pet's paws and skin. The second layer is made of paper tissue, which helps to lock in moisture and prevent leaks. The third layer is made of super absorbent polymer, which can absorb up to 3 cups of liquid. The fourth layer is made of tissue paper, which provides additional absorption and protection. Finally, the fifth layer is made of a waterproof film, which prevents any liquid from leaking through to your floors or carpets.
