Applications:

Our customizable Adult Diaper product is designed to cater to the needs of adults who require continence protection. The product is available in four different sizes - S, M, L, and XL, and is manufactured in China, with all the necessary certifications, including CE, ISO9001, ISO1348, FDA, and FSC. The minimum order quantity for the product is 60000, and it is priced between \$0.1 to \$0.25 per piece. The product is delivered in packaging of 10pcs, 20pcs, or 30pcs, and the delivery time is 10 days. The payment terms for the product are TT, and the supply ability is 8000000 pieces per month.

The Adult Diaper product is designed for adults who require continence protection, and it is suitable for a wide range of occasions and scenarios. The product is particularly useful for elderly individuals who may need to use Elderly Nappy Pants or Continence Protection Pants. The product is perfect for use in nursing homes, hospitals, and other care facilities, where it can provide a high level of comfort and protection to those who need it most.

The Adult Diaper product is also suitable for use by individuals who may be traveling long distances or who may not have access to a restroom for an extended period. The product is easy to use and provides a high level of comfort and protection, making it an ideal solution for those who may be experiencing incontinence or other related issues.

The Adult Diaper product is designed for use by adults of all ages, and it is particularly useful for those who may have difficulty with mobility or who may be bedridden. The product is available in different waist sizes, ranging from 28 to 40 inches, and it features tape tabs for easy fastening. The product also contains imported SAP, which provides excellent absorbency and leak protection.

Overall, our customizable Adult Diaper product is an excellent solution for individuals who require continence protection. It is suitable for a wide range of occasions and scenarios, including use in nursing homes, hospitals, and other care facilities, as well as for individuals who may be traveling or who may have difficulty with mobility. The product is comfortable, easy to use, and provides a high level of protection, making it an ideal solution for those who need it most.
